1967 INDEX OF ARTICLES PUBLISHED IN

MATERIALS ENGINEERING

INDEX OF FEATURE ARTICLES

ALUMINUM AND ITS ALLOYS

Clad Metal Wire Outperforms Solid Wire--Feb, p 66
Close Tolerance Al Impacts Come in Many Shapes, Sizes--Oct, p 78
Disposable Fire Extinguisher--Apr, p 119
Materials Forecast 1967-Metals--Jan, p 100
Prefinished Metals--Mar, p 97
Welding Characteristics of High Strength Aluminum Alloys--Mar, p 74

BERYLLIUM

Beryllium Copper Alloys Solve 11 Design Problem[illegible], p 74

CARBON, GRAPHITE

Materials Forecast 1967-Nonmetallic Materials--Jan, p 106
What's New in Fibers for Strong, Light Composites--Oct, p 74

CASTINGS

Permanent Mold vs Die Casting--Mar, p 68
Shell Mold Castings Resist Heat and Corrosion--Feb, p 62
Ultrasonics Cut Cost to Inspect Steel Castings--Aug, p 54

CERAMICS, GLASS

Boron Nitride: High Cost Material with a Promising Future--Feb, p 70
Control Glass Properties with Films and Coatings--Sept, p 90
Glass Parts: How to Select and Specify--Aug, p 85
High Temperature Materials for Rotating Electrical Machinery--Mar, p 80
Hot Press Ceramics for High Strength, Precision--July, p 76
Materials Forecast 1967-Nonmetallic Materials--Jan, p 106
New Dielectrics Solve 10 Insulation Problems--Oct, p 37
What's New in Fibers for Strong, Light Composites--Oct, p 74

COATINGS, FINISHES

Control Glass Properties with Films and Coatings--Sept, p 90
Finishes for Plastics--Nov, p 91
Fluorescent Coatings Put a Glow on Products--Apr, p 90
Get Longer Tool, Mold Life with Electroless Nickel--Dec, p 84
Materials Forecast 1967-Coatings and Finishes--Jan, p 112
New Dielectrics Solve 10 Insulation Problems--Oct, p 37
New Finishes Make Wood Look Better, Last Longer--July, p 80

New Materials, Fast Plating Boost Plated Plastic Parts--May, p 88
Prefinished Metals--Mar, p 97
Water Desalination Poses Tough Materials Problems--Feb, p 76

COMPOSITES

Clad Metal Wire Outperforms Solid Wire--Feb, p 66
Consider Composites for Cryogenic Conditions--Nov, p 68
FRP Parts Take to the Air to Prove Structural Strength--Dec, p 54
New Glass-Filled Plastics Process Easier, Cost Less--June, p 80
New Materials Seen on Research Horizon--Nov, p 38
Prefinished Metals--Mar, p 97
Today's Honeycomb: Light, Rigid--More Uses--Dec, p 62
Water Desalination Poses Tough Materials Problems--Feb, p 76
What's New in Fibers for Strong, Light Composites--Oct, p 74

COPPER AND ITS ALLOYS

Beryllium Copper Alloys Solve 11 Design Problems--June, p 74
Clad Metal Wire Outperforms Solid Wire--Feb, p 66
High Temperature Materials for Rotating Electrical Machinery--Mar, p 80
Liquid Cooled Cu Conductors Boost Power--Dec, p 45
Materials Forecast 1967-Metals--Jan, p 100
Prefinished Metals--Mar, p 97

CORROSION RESISTANT PROPERTIES AND MATERIALS

Boron Nitride: High Cost Material with a Promising Future--Feb, p 70
How Metals Resist Sea Water--May, p 82
How to Protect Materials Against Cavitation Damage--Mar, p 86
Materials Forecast 1967-Metals--Jan, p 100
Porous Metals Filter Liquids, Cut Noise, Dampen Vibration--Feb, p 80
Shell Mold Castings Resist Heat and Corrosion--Feb, p 62
Water Desalination Poses Tough Materials Problems--Feb, p 76

ELECTRICAL AND ELECTRONIC PROPERTIES AND MATERIALS

Boron Nitride: High Cost Material with a Promising Future--Feb, p 70
Clad Metal Wire Outperforms Solid Wire--Feb, p 66
High Temperature Materials for Rotating Electrical Machinery--Mar, p 80
How to Select Electrical Resistance Alloys--Nov, p 44
Liquid Cooled Cu Conductors Boost Power--Dec, p 45
New Conductive Elastomers Withstand High Temperatures--Mar, p 90
New Dielectrics Solve 10 Insulation Problems--Oct, p 37

EXTRUSIONS

Carbonitrided Steel Parts Fight Wear, Take Impact--Aug, p 78
Close Tolerance Al Impacts Come in Many Shapes, Sizes--Oct, p 78

Rubber Parts--May, p 99
Switch to Cold Extrusion Cuts Steel Part Costs--Oct, p 56

FABRICS, FIBERS, FELTS

FRP Parts Take to the Air to Prove Structural Strength--Dec, p 54
No Warp, No Woof: Tailored Plastic Textiles--July, p 70
'Shotgun' Fiber Tests Kill Old Theories--Nov, p 82
What's New in Fibers for Strong, Light Composites--Oct, p 74

FORGINGS

Superalloy Forgings Hold Up as Temperatures Soar--Aug, p 70

FORMING

Hot Press Ceramics for High Strength, Precision--July, p 76
Shock Forming Bangs Out Complex Parts--Accurately--May, p 66

GENERAL

Materials Inside the Body Struggle to Survive--July, p 64
Mechanical Properties and Tests-A to Z--June, p 93
New Materials Seen on Research Horizon--Nov, p 38
7-Society Energy Meeting Wants Tough New Materials--Dec, p 38
What's Ahead in Materials Consumption?--Jan, p 118

HIGH TEMPERATURE PROPERTIES AND MATERIALS

Boron Nitride: High Cost Material with a Promising Future--Feb, p 70
Dispersion Strengthened Metals: Stronger at High Temperatures--Apr, p 98
Flame-Retardant Plastics Quash Smoke, Noxious Gases--Sept, p 81
High Temperature Materials for Rotating Electrical Machinery--Mar, p 80
How to Select Electrical Resistance Alloys--Nov, p 44
Materials Forecast 1967-Metals--Jan, p 100
New Conductive Elastomers Withstand High Temperatures--Mar, p 90
New High Temperature Adhesives: Easier to Apply, Stand More Heat--Apr, p 84
New Thermoplastics Take Heat, High Loads--Aug, p 58
Pneumatic Tire--Apr, p 120
Shell Mold Castings Resist Heat and Corrosion--Feb, p 62
Superalloy Forgings Hold Up as Temperatures Soar--Sept, p 70
What's New in Fibers for Strong, Light Composites--Oct, p 74

IRONS

High Temperature Materials for Rotating Electrical Machinery--Mar, p 80

JOINING AND FASTENING

Clean, Fast Vacuum Brazing Joins Diverse Materials--Dec, p 76
Engineer's Guide to Plastics--Feb, p 85
High Strength Fasteners Get Stronger--June, p 86
New High Temperature Adhesives: Easier to Apply, Stand More Heat--Apr, p 84
Plasma Arc Welds Thin Materials Fast--Aug, p 66
Welding Characteristics of High Strength Aluminum Alloys--Mar, p 74

MAGNESIUM AND ITS ALLOYS

Materials Forecast 1967-Metals--Jan, p 100

MOLDING, MOLDINGS

Air Conditioner Housing--Apr, p 116
Automobile Fender Extension--Apr, p 118
Engineer's Guide to Plastics--Feb, p 85
Finishes for Plastics--Nov, p 91
Rubber Parts--May, p 99
Thermoset Plastic Parts Mold Faster, Cost Less--May, p 78

NICKEL AND ITS ALLOYS

Get Longer Tool, Mold Life with Electroless Nickel--Dec, p 84
Materials Forecast 1967-Metals--Jan, p 100
Prefinished Metals--Mar, p 97
Superalloy Forgings Hold Up as Temperatures Soar--Sept, p 70

NONFERROUS METALS (Not Classified Elsewhere)

How to Protect Materials Against Cavitation Damage--Mar, p 86
How to Select Electrical Resistance Alloys--Nov, p 44
Materials Inside the Body Struggle to Survive--July, p 64
7-Society Energy Meeting Wants Tough New Materials--Dec, p 38
What's Ahead in Materials Consumption?--Jan, p 118

NONMETALLICS (Not Classified Elsewhere)

Materials Inside the Body Struggle to Survive--July, p 64

PAPER

New Dielectrics Solve 10 Insulation Problems--Oct, p 37

PLASTICS-REINFORCED

Consider Composites for Cryogenic Conditions--Nov, p 68
Engineer's Guide to Plastics--Feb, p 85
Everywhere It's "No Wear" with Filled Fluorocarbons--Nov, p 58
FRP Parts Take to the Air to Prove Structural Strength--Dec, p 54
New Glass-Filled Plastics Process Easier, Cost Less--June, p 80
What's New in Fibers for Strong, Light Composites--Oct, p 74

PLASTICS-THERMOPLASTICS

Air Conditioner Housing--Apr, p 116
Alloy a Plastic to Improve Properties--July, p 60
Automobile Fender Extension--Apr, p 118
Conductive Membrane--Apr, p 121
Disposable Fire Extinguisher--Apr, p 119
Engineer's Guide to Plastics--Feb, p 85
Everywhere It's "No Wear" with Filled Fluorocarbons--Nov, p 58
Finishes for Plastics--Nov, p 91
Flame-Retardant Plastics Quash Smoke, Noxious Gases--Sept, p 81
Materials Forecast 1967-Nonmetallic Materials--Jan, p 106
New Dielectrics Solve 10 Insulation Problems--Oct, p 37
New Glass-Filled Plastics Process Easier, Cost Less--June, p 80
New Materials, Fast Plating Boost Plated Plastic Parts--May, p 88
New Thermoplastics Take Heat, High Loads--Aug, p 58
No Warp, No Woof: Tailored Plastic Textiles--July, p 70
Prefinished Metals--Mar, p 97
Water Desalination Poses Tough Materials Problems--Feb, p 76
What's Ahead in Materials Consumption?--Jan, p 118

PLASTICS-THERMOSETS

DAP Plastic Parts Retain Properties in Tough Environments--Mar, p 64
Engineer's Guide to Plastics--Feb, p 85
Epoxies: More Versatile than Ever--Oct, p 66
Finishes for Plastics--Nov, p 91
Flame-Retardant Plastics Quash Smoke, Noxious Gases--Sept, p 81
Materials Forecast 1967-Nonmetallic Materials--Jan, p 106
New Dielectrics Solve 10 Insulation Problems--Oct, p 37
New Materials, Fast Plating Boost Plated Plastic Parts--May, p 88
Plastic Foams Hold Up 5000 Fathoms Down--Sept, p 74
Prefinished Metals--Mar, p 97
Thermoset Plastic Parts Mold Faster, Cost Less--May, p 78
Water Desalination Poses Tough Materials Problems--Feb, p 76
What's Ahead in Materials Consumption?--Jan, p 118

POWDER METALLURGY

Materials Forecast 1967-Metals--Jan, p 100
Porous Metals Filter Liquids, Cut Noise, Dampen Vibration--Feb, p 80
P/M Parts--July, p 85

PRECIOUS METALS

Surface Properties: Key to Contact Selection--Aug, p 76
What's Ahead in Materials Consumption?--Jan, p 118

RUBBER

New Conductive Elastomers Withstand High Temperatures--Mar, p 90
New High Temperature Elastomers Last Longer, Cut Maintenance--Apr, p 108
Pneumatic Tire--Apr, p 120
Rubber Parts--May, p 99

STAINLESS AND HEAT RESISTING STEELS

Materials Forecast 1967-Metals--Jan, p 100
Shell Mold Castings Resist Heat and Corrosion--Feb, p 62
Wrought Steels Primer--Sept, p 99

STEELS

Carbon Spring Steels Have Broad Product Appeal--Mar, p 92
Carbonitrided Steel Parts Fight Wear, Take Impact--Aug, p 78
Clad Metal Wire Outperforms Solid Wire--Feb, p 66
How to Protect Materials Against Cavitation Damage---Mar, p 86
Materials Forecast 1967-Metals--Jan, p 100
Prefinished Metals--Mar, p 97
Shell Mold Castings Resist Heat and Corrosion--Feb, p 62
Switch to Cold Extrusion Cuts Steel Part Costs--Oct, p 56
Ultrasonics Cut Cost to Inspect Steel Castings--Aug, p 54
Vacuum Degassed vs Air Melted Steels: No Clear-Cut Winner--Apr, p 78
What's Ahead in Materials Consumption?--Jan, p 118
Wrought Steels Primer--Sept, p 99

TESTING AND INSPECTION

Dynamic Friction Measured Fast, Accurately--Sept, p 86
New Thermal Fatigue Test Makes Metals Fail Fast--Dec, p 90
'Shotgun' Fiber Tests Kill Old Theories--Nov, p 82
Special Report-Testing--June, p 93
Study Fracture Surfaces to Predict Metal Failures--Oct, p 90
Ultrasonics Cut Cost to Inspect Steel Castings--Aug, p 54

TIN

Prefinished Metals--Mar, p 97

TITANIUM AND ITS ALLOYS

Materials Forecast 1967-Metals--Jan, p 100
New Findings Stretch Titanium Performance Limits--May, p 94
Plasma Arc Welds Thin Materials Fast--Aug, p 66

TUBING

Select Mechanical Tubing for Minimum Cost--Nov, p 77
Water Desalination Poses Tough Materials Problems--Feb, p 76

WOOD

Balsa-Tough Lightweight Challenges Foams--June, p 70
New Finishes Make Wood Look Better, Last Longer--July, p 80

ZINC

Prefinished Metals--Mar, p 97

Please see next page for "Index of Authors"
